PREFACE.

The present volume of the Directory shows 44,000 names for the Oakland department, as against 41,630 for last year. This would indicate a population of 97,777. Deducting 14,834 for the territory included in this department not within the City limits, gives Oakland City a population of 82,943. This is not far from the exact figure. In the fall of 1900, the Census Commissioner at Washington asked the publisher for an estimate of Oakland's population. As he had material for a close estimate, he made it up, and reports that it would not vary more than 200 from 75,000. The recent census of the Postoffice authorities justifies that estimate, and shows also that Oakland is growing more rapidly, probably, than any other city in the West.

A comparison of the classified business directory with one of four years ago will give an idea of the rapid strides of Oakland's commercial and manufacturing enterprise.

HEALD'S SCHOOL OF MINES AND ENGINEERING

PROVIDED WITH ALL NECESSARY INSTRUMENTS, LABORATORIES AND APPLIANCES.

DAY AND NIGHT SESSIONS.

CIVIL AND MINING ENGINEERING

Thorough instruction in mining and surveying much shorter than the university course of four years. The plan adopted therefore is to *specialize*, so that those who wish can take up one subject only or as many as may be deemed advisable. Six months devoted exclusively to mining engineering will give the average student a full *practical* knowledge of the subject.

Any course or group of studies may be selected.

The CIVIL ENGINEERING COURSE includes:—Algebra, Geometry, Trigonometry, Draughting, Strength of Materials, Surveying, etc.

The MINING ENGINEERING COURSE includes:—Assaying, Blowpipe Analysis, Mill Construction, Milling, Mining, Geology, Mineralogy, Economic Geology, Surveying.

The METALLURGICAL COURSE includes:—Chemistry, Assaying, Metallurgy, Calorifics.

ELECTRICAL ENGINEERING DEPARTMENT

The study and work in this department cover all the modern applications of electricity. The course is so condensed and divested of superfluities as to bring it within the time limit and means of the average young man who has to make his own way in the world. Each student has to manufacture in the workshop a large proportion of the apparatus. The department is thoroughly equipped with Dynamos, Motors, Measuring Instruments, Wiring Appliances, Wheatstone Bridges, Telegraphic Instruments and Appliances, Electro-Medical Apparatus, Galvanic and Storage Batteries of all kinds, Fluoroscopes, X-Ray closet and a large Laboratory.

Send for Catalogue.

The course of study in every department of Heald's Business College is as short, practical, thorough and useful as it is possible to make it.

Visitors to the College are always welcome.
